WEE/RoHS Directive 2011/65/EU Compliance

All of the doming resins produced by Unisect Resources Ltd in UK and by Unisect Resources Inc in USA meet all of the requirements of WEE/RoHS Directive 2011/65/EU for mercury, lead, cadmium, chromium, PBB, PBDE, halogens and phthalate plasticisers content.

Full Certificates of Analysis from an independent test laboratory for all Unisect resins are available on request or via the Unisect website – www.unisect-resources.com

Unisect worldwide offer their doming resins with zero content of mercury as well as complying with all of the other requirements of WEE/RoHS Directive 2011/65/EU. These resins are designated 'MF' grades e.g. Unisect 11LV-MF and have the same processing and cure characteristics as the Unisect standard range of resins.
